AIRPORTS

	<u>Month</u>	<u>Page</u>
Fast-paced concrete methods on airport structures Massachusetts	February	52
American contractors build air-navy base in Thailand Thailand	March	24
Test models provide headstart on terminal building New York	March	12
Jet-speed runway paving California	November	8

BRIDGES

Boulders, gravel hinder driving of watertight cofferdams New York	January	48
Bridge towers readied for prefab cable strands Rhode Island (Newport Bridge)	February	16
Steel pier forms left in place add strength, beauty North Carolina	February	74
Slip-forming bridge piers cuts time on tight schedule California	March	76
Bridge, approaches overdesigned for future twin span Connecticut (Mahegan-Pequot)	April	26
Flexible barge operations speed bridge substructure New York (Irondequoit Bay Bridge)	April	41
How to build a box-girder bridge without shoring Nevada	April	97
Record concrete arch crosses gorge on timber Washington (Cowlitz Bridge)	May	58
Streamlined operation speeds bridge columns Nevada	June	30
Final span over C&D canal nears completion Pennsylvania	June	70
Single steel arch replaces two concrete arches Arkansas	July	38
Bridge piers built in deep cofferdams Tennessee	August	30

	<u>Month</u>	<u>Page</u>
Newport Bridge cables -- a breakthrough for suspension bridges Rhode Island	September	24
Piers for Coronado Bridge built without cofferdams California (Coronado Bridge)	September	29
Heat-shrinking technique saves on damaged bridge Michigan	November	23
Different contractors, methods used for bridge substructure New Jersey	November	56
Timber highway bridges designed to match background South Dakota	December	8
<u>BUILDINGS</u>		
Precast columns shape arena, support compression ring California	February	38
Pumped concrete saves time, money on building job Connecticut	March	53
Special forms provide architectural 'precast' effect New York	March	80
High-rise apartment built in sections, rigged for research Illinois (Lake Point Towers)	April	66
Factory system provides "instant" precast building panels Ireland	May	52
Tower cranes boost building operations New York	May	36
Tower cranes provide jump on building-site conditions Pennsylvania	June	42
Loaders demolish buildings for school site Pennsylvania	August	15
Exposed-aggregate finish placed by three methods Texas	August	18
The 'Erector-Set' of construction tops out building New York	August	44
Engineered excavation avoids trouble in deep cut New York	September	18

	<u>Month</u>	<u>Page</u>
Contractor builds a dream with salvaged items New Jersey	September	48
Contractor's system speeds precast panel erection Pennsylvania	September	50
Panels dunked into hole of doughnut-shaped structure Texas	November	16
Fancy form work shapes power-plant structures Canada	November	42
<u>DAMS & F. C.</u>		
'Don't dirty the water' is one dam headache Oregon (Blue River Dam)	January	36
Gantry-mounted steel forms speed river conduit work Connecticut	March	56
Terra firma approach speeds dam Arkansas (Arkansas Lock & Dam 13)	April	30
Building stone dikes -- by land and by sea Mississippi	May	30
Thumbs up for Little Goose -- a million yards of concrete in a year Washington (Little Goose Dam)	May	24
Contractor ingenuity speeds Arkansas lock and dam job Arkansas (Arkansas Lock & Dam 4)	June	38
'Design as you build' method solves foundation problems Texas	July	44
Oversize scrapers and shovels start Castaic Dam earthwork California (Castaic Dam)	September	36
<u>GENERAL</u>		
Construction Forecast for 1968	January	26
Automated batch-plant output increased by tilting mixer Connecticut	January	58
Concrete displaces slurry for deep perimeter wall of Trade Center New York	February	26
Grouting specialist offers construction remedies Michigan	February	90

	<u>Month</u>	<u>Page</u>
Articulated mattresses help to keep river at bay Mississippi	April	16
Pile driving in tough soil -- some fancy footwork Mississippi	May	50
Underwater pipeline delivers fuel from floating off-loading terminal Philippines	May	40
New construction program for junior high students New Jersey	June	36
Dredge-hauled fill builds a city within a city New York	June	47
Protecting grout in zero temperatures Pennsylvania	June	63
Automatic vertical, horizontal welding on big oil tanks Texas	July	18
How to deal with subsurface utilities New York	July	32
Compact plant in tight quarters supplies concrete for pumphouse California	August	56
Vari-jointed P-C pipe provides economical water line New Jersey	September	46
How contractors rate insurance and bonding	December	36
<u>HIGHWAYS</u>		
Confined interchange site calls for flexible earthmoving New York	January	28
Aeration of roadway cuts reduces water content to optimum Washington	January	33
Earthmoving obstacle course - a highway through the city California	March	74
Today's plans keep contractor moving tomorrow Massachusetts	March	44
Interstate crosses Utah salt flats Utah	March	36

	<u>Month</u>	<u>Page</u>
Contractor turns fill problem into profits Illinois	April	72
Earthmoving -- the hard way; No scrapers on city job Connecticut	April	88
Problem site overcome by flexible earthmoving Indiana	April	86
Tractor shovels, dozers slice cost on heavy rock grading job California	April	24
Contractors battle slides on highway drainage Texas	May	82
Sand borrow, ATB material permit winter grading work Washington	May	70
Unforeseen soil conditions call for construction changes Minnesota	June	14
Contractor takes a track through the jungles of Africa Africa	June	26
Central pylons carry four-level roadways Texas	July	28
Techniques overcome tough site conditions on interstate viaduct New Jersey	August	35
Paving machines that work on a 'shoe string' Arizona	October	26
Equipment jumps at Tehachapi Pass on bridge approaches California	November	25
Swampy area earthmoving -- 5 million yards Michigan	November	35
Shooting at Smugglers Gap to control slides Texas	December	15
<u>MAINTENANCE</u>		
Downtime kept in check by conservative maintenance Massachusetts	January	65

	<u>Month</u>	<u>Page</u>
Unit-interchange system keeps rigs rolling Connecticut	February	71
Management-planned maintenance facilities Arizona (Del E. Webb Corporation)	March	61
Equipment spread guides new shop layout New York	April	92
Small equipment repairs -- a mini-maintenance program New York	May	78
Periodic field checks cut maintenance problems Indiana	June	66
Equipment super doctors out downtime New York	July	48
Spending maintenance shop technique = Savings New Jersey	August	46
Simple approach keeps maintenance shop empty Pennsylvania	September	60
Computer maintenance -- where the action is! California	October	8
Maintenance time, records: Pay-Mates of the year Kentucky	October	17
Maintaining a mixed spread Ohio	October	23
Fix and Fabricate -- one shop's economy twins Kentucky	October	32
Standardization of equipment parts Pennsylvania	October	64
Planned program for lubrication	October	48
Lubrication -- Key to maintenance: Part 1	October	54
Filter out repair costs and delays	October	50
Maintenance shop 'turns to' on river, land operations Indiana	November	50

	<u>Month</u>	<u>Page</u>
The BIGGER they are -- the LESS they go down! Washington	December	38

MANAGEMENT

Fresh approach to management sparks Ruby Construction Company Kentucky	January	20
Principles of construction purchasing	March	70
Job-site computer provides timely data for management Idaho	April	58
Contractor Blount to head U. S. Chamber of Commerce Alabama	May	12
Having trouble keeping the job record straight? Try posting a box score	May	66
Negro contracting firm fills a \$100 million void New York	July	12
Paving contractor invests time, money for future growth Pennsylvania	September	56
How to get a clear job-cost picture	October	29
Hazard's in contracting -- top management, good public relations California	November	18
Teller talks explosives education New York	November	48

MEETINGS
